

Case Study

Private House - Park House Surrey

Project: Park House, Windlesham, Surrey
Product: Weber adhesives & grouts
Client: Richard Finlay Homes
Contractor: New Image Stone

n55Plus

Ref: tiling/Park House

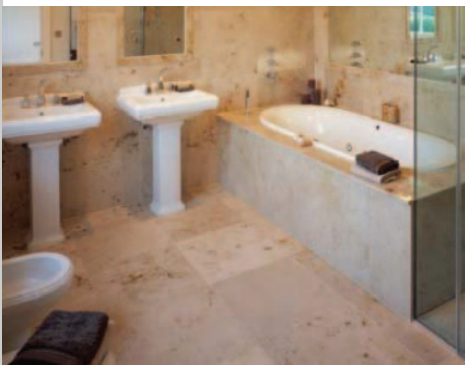

Project Brief

Weber is an international leader in the manufacture and application of innovative and practical tiling solutions. The Weber comprehensive tiling product range includes cementitious, ready-mixed and special adhesives, grouting, levelling compounds, special systems and ancillary products.

Solution

Recently, Weber has worked in conjunction with Richard Finlay Homes on the prestigious Park House development in Windlesham, Surrey. This unique country house, a true epitome of luxury and style, is nestled in six acres of beautiful parkland on the Berkshire Surrey border and boasts seven bedrooms and three bathrooms. Weber products were specified internally to fix the marble floor tiles chosen for the three en-suite bathrooms, kitchen and entrance hall. Each of these substantially sized areas received a first class application utilising a range of Weber adhesives and grouts in white. New Image Stone were responsible for the successful application.
